## SECTION 1: READING COMPREHENSION • The Life of a Modern Digital Nomad — 14 POINTS

### Working from Anywhere: The Rise of Digital Nomads

In recent years, the way professionals work has transformed dramatically. Thanks to reliable high-speed internet and lightweight portable computers, millions of employees and freelancers are abandoning traditional office desks. These workers are known as **digital nomads**. Instead of commuting to a fixed company office every day, they work remotely from coffee shops, shared workspaces, or quiet apartments across different countries.

Liam Carter, a 28-year-old graphic designer from the UK, decided to embrace this lifestyle two years ago. "*At the beginning, my family was worried that I was putting my career at risk,*" Liam explains. "*However, I am actually much more productive now. I organize my own weekly schedule and complete projects for international clients while learning about new cultures.*"

Nevertheless, this modern lifestyle comes with distinct difficulties. Moving constantly from one city to another can become physically exhausting, and being far away from friends during special events is sometimes lonely. Furthermore, digital nomads must manage their own administrative paperwork and adapt to diverse time zones. Despite these real challenges, Liam has no intention of returning to a traditional 9-to-5 desk job in the near future.

**A. Choose the correct answer (A, B, or C):** (4 × 1 pt = 4 pts)

**1. Digital nomads can work globally mainly because of:**
[ ] **A.** Free international flights.
[ ] **B.** Fast internet and laptops.
[ ] **C.** Strict daily office guidelines.

**2. When Liam started this lifestyle, his family:**
[ ] **A.** Felt concerned about his career.
[ ] **B.** Decided to travel along with him.
[ ] **C.** Encouraged him to buy a house.

**3. Liam feels that working remotely has made him:**
[ ] **A.** Less productive than in an office.
[ ] **B.** More productive and independent.
[ ] **C.** Reluctant to accept new clients.

**4. According to paragraph 3, one main disadvantage is:**
[ ] **A.** High cost of computers.
[ ] **B.** Loneliness and constant traveling.
[ ] **C.** Strict vacation rules from bosses.

**B. Are these statements True or False? Justify with a short quote from the text:** (3 × 2 pts = 6 pts)

| Statement | T / F | Justification from text |
|---|---|---|
| **1.** Liam has been living as a digital nomad for over five years. | [ ] | Quote: "....." |
| **2.** Liam works exclusively for companies based in his hometown. | [ ] | Quote: "....." |
| **3.** Liam wants to return to an ordinary 9-to-5 desk job very soon. | [ ] | Quote: "....." |
